Interactive Flat Panel Display

Interactive Flat Panel Display

Combining LED touch screen technology with interactivity, Vestel Interactive Flat Panel Display is an interactive, dynamic, and engaging solution for education and business environment.

Suitable for both schools and business offices, the interactive flat panel display technology facilitates learning, information sharing, and encourages interactive communication. Vestel IFPD is an excellent product to connect teachers and students, as well as presenters and attendees.

Vestel offers 65" and 84" wall-mountable and stand alone solutions with motorised stand for businesses and learning institutions who have different requirements.

What You Can Do

- Write on the screen with your finger or a pen, and erase
- Touch the screen to navigate through documents, videos, presentations, or websites
- Make notes, draw shapes, move, scale, or rotate the images with a finger touch
- Save your notes, graphs, text, audio files to print, e-mail, or share them
- Switch from writing notes to navigating applications and back
- Create video or audio files to teach an application or a lecture to be posted
- Record instructions as video files and post the materials for review by student
- Control the PCs / tablets in the classroom from the display (*)
- Conduct quizzes and capture feedback on the display (*)

Education Solutions

Vestel Interactive Flat Panel Display is an innovative and user-friendly product solution that has been designed to enhance the education process, helping instructors to create an engaging and responsive learning environment for their students. Offering LED touch screen technology, end users can write on the board with a pen or even their fingers. Documents, presentations, videos and websites can also be navigated and scrolled through, simply by touching the screen. A versatile product solution, the white board can save notes, graphs, text and audio files, enabling end users to print, e-mail or share them instantly or at a later time.

Office Solutions

Vestel IFPD with high picture quality and interactivity functions is also suitable for the business applications. It can simply be installed in meeting rooms to be used for presentations, video conferences, interactive lectures , and seminars . It helps business executives to have effective and distraction free presentations by facilitating interaction between the presenter and the audience. The product can play a variety of media content including images, videos, and power point presentations. The presenters and participants can share files and other materials with audience devices . In addition, presenters can control the devices of the attendees during sessions.

Equipped with LED touch screen technology, Interactive Flat Panel Display is an excellent choice for businesses to deliver dynamic presentations and seminars , encouraging interactive communication and ehnhancing the audience experience.
